

Entomology Seminars

Spring 2012

Tuesdays - 4:00 p.m. - Nebraska East Union

- January 17.....Integrated Pest Management Research and Application in Industry
Dr. Deane Zahn, Field Scientist, Dow AgroSciences, Lincoln, NE
- January 24.....No Seminar
- January 31Vitellogenin and Stress Resistance in Honey Bees
Lizette Dahlgren, Entomology Graduate Student
- February 7.....Insect Control Options for Organic Farming: What Role Do Biopesticides Play?
Chelsea Piitz, Entomology Graduate Student
- February 14Toxic and Repellent Effects of Pyrethroids in Orchards on the Honey Bee,
Apis mellifera (Hymenoptera: Apidae)
Erin Ingram, Entomology Graduate Student
- February 21.....Carabids (Coleoptera: Carabidae) as Natural Enemies of Pests and Weeds
in Agro-ecosystems
Johan Pretorius, Entomology Graduate Student
- February 28.....Egg Parasitoids and Their Implications for Stink Bug (Hemiptera:
Pentatomidae) Biological Control
Wan Zaki Wan Mamat, Entomology Graduate Student
- March 6.....Impact of Wheat Streak Mosaic and *Triticum* Mosaic Viruses on Transmission
by *Aceria tosichella* and Virus Epidemiology
Camila Oliveira, Entomology Graduate Student
- March 13.....Integrated Pest Management in Brazilian Citrus
Lia Marchi, Entomology Graduate Student
- March 27Evaluation of Switchgrass for Resistance to Piercing-sucking Insects
Kyle Koch, Entomology Graduate Student
- April 3.....The Twists and Turns of a Weed Biocontrol Project
Dr. Robert N. Wiedenmann, University of Arkansas, Fayetteville
- April 10RNA Interference in Pest Management
Ralph Narain, Entomology Graduate Student
- April 17.....The Longhorn Grasshopper (*Sexava* spp. (Orthoptera: Tettigoniidae)) on Coconut
and the Consideration of Management Tactics for this Pest
Jelfina Alouw, Entomology Graduate Student
- April 24.....The Application of Sequencing Technology in Entomological Research
Zixiao Zhao, Entomology Graduate Student
