

Fridays at 11:00 a.m.

Online: <https://zoom.unl.edu/j/93218561959>

Password: UNLBugs

- Friday, August 21 **Drs. Julie Peterson and Kyle Koch**, Department of Entomology, UNL
"Who's Who in Entomology"
- Friday, August 28 **No Seminar**
- Friday, September 4 **Dr. Nicholas Tinsley**, Bayer Crop Science
"Seed Treatments and Risk-Based IPM: Current Status and Future Trends"
- Friday, September 11 **Gabriela Inveninato Carmona**, Dept. of Entomology, UNL (Advisor: Dr. Justin McMechan)
"Conducting On-Farm Studies During Grad School: Opportunities and Challenges"
- Friday, September 18 **Andrea Rilaković**, Dept. of Entomology, UNL (Advisors: Drs. Julie Peterson & Greg Kruger)
"Developing best recommendations for chemigation and aerial application of insecticides on western bean cutworm in corn"
- Friday, September 25 **Teresa Norberg-King**, USEPA Mid-Continent Ecology Division-Duluth, Duluth, Minn.
"The Application of Toxicity Testing into the Assessment and Management of Effluents and Contaminated Sediments in the US"
- Friday, October 2. **Dr. Blanca Huertas**, Senior Curator, Lepidoptera, National History Museum, London
"The beauty of the dead: Challenges & opportunities for (butterfly) taxonomy in an era of changes"
- Friday, October 9. **Dr. Prince Kudjoe Zogli**, Department of Entomology, UNL (Post Doc with Dr. Joe Louis)
"Deciphering plant defense against insect herbivory with 'omics'"
- Friday, October 16. **Vilma Montenegro**, Department of Entomology, UNL (Advisor: Dr. Justin McMechan)
"Soybean gall midge: Efficacy of insecticide timing and ecological information on a new & emerging pest of soybean"
- **Courtney Brummel**, Department of Entomology, UNL (Advisors: Drs. Judy Wu-Smart & Louise Lynch-O'Brien)
"Developing integrated pollination conservation and research efforts at Kimmel Orchard"
- Wednesday, Oct. 21, 3 p.m. . **Dr. Scott Hutchins**, Deputy Undersecretary of the USDA Research, Education, and Economics Mission. Seminar program to be determined (TBD).
- Friday, October 23. **Mia Luong**, Department of Entomology, UNL (Advisors: Drs. Joe Louis and Gary Hein)
"Interactions between resistance genes in wheat and wheat curl mite populations"
- **Ravneet Kaur**, Department of Entomology, UNL (Advisors: Ana Velez and Justin McMechan)
"Soybean gall midge (*Resseliella maxima Gagne*) field survey & population genetics"
- Wednesday, Oct. 28, 11 a.m.. **Timothy Dang**, Department of Entomology, UNL (Advisor: Dr. Lance Meinke)
"Unique Adaptations within Formicidae"
- Friday, October 30 **Heather Leach**, Extension Associate, Penn State University
"Invasion of the Lanternflies: response, impact, & management of the new invasive insect pest"
- Friday, November 6 **Alexander Lehmann**, Department of Entomology, UNL (Advisor: Dr. Gary Brewer)
"From Basic Chemical Ecological Studies to IPM Application"
- Friday, November 13 **Dr. Corraine McNeill**, Program Director Biomedical Sciences, Union College, Lincoln, NE
"Gender Specific Vision in Bed Bugs"
- Friday, November 20 **Tia Busenitz**, Dept. of Entomology, UNL (Advisor: Dr. John Ruberson)
"Influence of Insecticides on the Honeybee Microbiome"
- **Sheldon Brummel**, Department of Entomology, UNL (Advisor: Dr. Judy Wu-Smart)
"Evaluating Beekeeping Management Practices for Midwestern Beekeepers"
